

Transforming Logistics

with industry-proven efficiency & reliability

Brother Logistics Solutions

Propel your operations with next-level solutions

Optimise workflow productivity with Brother's comprehensive suite of printing, labelling and scanning solutions. By streamlining paper-intensive processes, Brother delivers unparalleled quantity and quality with uncompromising accuracy and transparency.

Our solutions deliver efficient document capture and retrieval, while complying with stringent security standards locally and internationally. With Brother, take your business to greater heights while lowering your operational costs.

Brother solutions for today's logistics environment

Operate at peak productivity

Grow your operations with Brother's efficient solutions, designed to deliver high-print volumes around the clock. With seamless integration across various business processes, we help you edge ahead of the competition.

Bespoke accessories for your business

Utilise the right accessories for your paper-intensive environment. Pick from paper trays for increased paper capacity, or tower trays for high-volume printing. Allocate specific trays for creating carbon copy forms; add a sorter unit to automatically collate print jobs by departments or form; or attach a finisher unit for automatic sorting and stapling of documents.

Optimising your back-end operations

Empower your IT administrators with innovative features that streamline their work processes.

Mass Deployment Tool for easy management of device settings.

Web BRAdmin for fleetwide remote monitoring and troubleshooting.

Universal Printer Driver to support your entire Brother fleet without the need for separate printer drivers.

Customisation to meet all your business needs

Tap into our machines' varying customisation options for enhanced productivity.

Direct shortcuts for commonly used tasks on the LCD touchscreen.

Custom User Interface creates a bespoke interface that integrates smoothly with your business processes.

Special Solutions Customisation (SSC) enables Brother products to be modified to suit your business requirements.

Decentralised print environment

When it comes to printing invoices and reports in real-time, a single large copier can only do so much. By deploying several desktop business printers across your departments, there's greater ease and flexibility to suit each department's unique needs.

Effortless print mobility

Compatible with most devices and operating systems, Brother's lightweight mobile and label printers with Wireless and Bluetooth connectivity allow you to print barcode labels and invoices on the go. Best of all, thermal print technology eliminates the need for ink or toner, further enhancing your print mobility.

Achieving uncompromising security

Secure your print environment with Brother's print and labelling solutions. Compliant with industry standards, our enterprise-level security features safeguard all your sensitive data from cyber intrusions.

NFC tap to access

Near Field Communication (NFC) reader on selected Brother machines prevents unauthorised access and tracks individual usage. Simply tap your NFC card to securely access the machine without the need to enter a PIN.

Secure Function Lock

Limit the functions on your Brother machines for users or groups and have better control over who gets access to specific functions such as colour printing, copying, or the number of pages they are allowed to print.

Secure Printing

Share your Brother machines across departments while still safeguarding sensitive information.

Secure Print ensures that documents sent for print remain stored in the printer's memory until a password is entered on the printer.

Secure Print+ lets you release the print job with a simple tap of your NFC card.

Internet Protocol Security (IPSec)

Brother machines come integrated with IPsec for robust, industry-standard encryption, making them ideal for securing inventory and order tracking data against interception and theft when sent for print.

Significant savings for your operations dollar

Streamline your printing environment with Brother's cost-effective print solutions. Bid farewell to paper-intensive environments and hidden costs with our affordable supplies and print programmes.

Ultra High-Yield Print Supplies

Enjoy greater page yields at a lower cost per page. Genuine Brother ultra high-yield replacement toners and ink deliver greater savings on each printed page without compromising print quality or machine lifespan.

Brother Managed Print Services (MPS)

Enjoy a fully optimised printing infrastructure without costly initial investments through Brother Toner Management Program. This comprehensive program provides you with full warranty, timely machine maintenance, on-demand toner replenishments and fixed toner prices throughout the duration of your agreement.

Brother's MPS advantage		
Business Needs	Lower Operating Costs	Improved IT & Organisation Effectiveness
Brother Managed Print Services	Optimise Print Infrastructure - Reduced cost per page - Low initial investment costs	Manage Printer Environment - On-site warranty and maintenance - Delivery of toner replenishment
Business Benefits	Cost Transparency & Greater Cost-savings	Boost IT Productivity & Printer Reliability
Enjoy greater ROI across the board		

Performance meets reliability

Enjoy smoother business workflows without frequent machine breakdowns and poor service. With comprehensive customer support and products that withstand the rigours of warehouses and transportation, Brother delivers reliability to bolster productivity.

Ready for the long haul

Built to withstand the rigours of transport and storage, our label and receipt printers are exceedingly resilient. Selected models are rated with an IP54 certification and 8.2-foot drop protection. They are also impervious to water, dust, or drops when operating under normal conditions.

High-durability TZe labels

Designed for ultimate durability, TZe labels are protected with clear laminated film for a lasting finish. They are ideal for use in harsh environments and can deal with exposure to extreme temperatures, abrasion, water, and weather conditions.

Consumer-driven quality

Our outstanding service and warranty comes included with every Brother product. Our focus on our customers has won us multiple PCMag awards, scoring the highest in overall satisfaction and reliability.

Digitising to tackle dynamic demands

Empower your enterprise with Brother's suite of digitising solutions. Migrate to high-fidelity digital copies, complete with secure access and efficient storage. Say goodbye to missing documents and error-prone data, staying responsive to an ever-adapting market.

Solution	Brother Scanners	Brother MFCs
Performance		
Single Page Duplex Scanning: Dual CIS scanning technology processes 2-sided documents in a single pass for faster scanning speeds	•	•
Document Indexing: Optimises data entry by direct key-in of folder path on machine panel.	•	•
Optical Character Reader (OCR): Effortlessly scan printed documents into editable formats at the device itself via integrated OCR.	•	•
Skip Blank Page: Automatically detects and skips blank pages to cut down on scan times and files sizes.	•	•
Edge Recognition: Automatically recognises the dimensions of scanned documents to reduce file sizes.	•	
Base Colour/Hole Punch Remover: Remove the base colour or hole punch marks on scanned documents for greater legibility.	•	
Software		
ABBYY FineReader: Easily converts scanned paper documents, PDFs and digital images into editable, searchable information.	•	
PaperPort Professional 14: Transforms documents into searchable PDFs to efficiently organise, manage and find documents, all in one software.	•	•
Button Manager: Assign up to 9 unique destinations to complete most frequent scanning and sending tasks.	•	•
Scan to Functions		
Scan to SharePoint/Email/Network folder: Scan directly to various destinations without the extra step of saving on your computer first.	•	•
Scan to Secure PDF: Creates a security PIN for scanned PDFs to ensure customer data confidentiality.	•	•
Scan to PDF/A: Designed for long term archiving, PDF/A files retain their original formatting when opened by future applications.	•	•

Industry-leading solutions every step of the way

From back office to warehouse management, Brother integrates your workflow across various locations, allowing you to focus on the big picture.

POSTAL SERVICES

BACK OFFICE
Facilitate deliveries with printed labels and transaction receipts

DELIVERY
Print invoices and proof of delivery for received goods

ARCHIVAL STORAGE
Scan and archive import and export orders with ease

BACK-END

HR & FINANCE
Securely print confidential contracts and employee salary slips

BUILDING MANAGEMENT
Streamline business administration with coloured posters and printed signages

IT DEPARTMENT
Manage company-wide printing seamlessly from one location

WAREHOUSE

INVENTORY MANAGEMENT
Track physical inventories with laminated labels and customised forms

WAREHOUSE FLOOR
Keep detailed inventories with pick lists and printed labels

BACK OFFICE
Handle delivery bookkeeping with printed invoices

Gear Up With An Exceptional Line-Up

With Brother's comprehensive line-up of logistical solutions and services, we'll put your business on the fast track to success.

WAREHOUSE

INVENTORY MANAGEMENT

Print durable, laminated labels for warehouse shelves

- Multiple colours of TZe tapes for easy identification of warehouse stock
- Maximum connectivity across USB, connectivity, as well as optional Bluetooth interface
- Seamless integration into existing warehouse information system

Our recommendation:

Industrial Desktop Label Printer PT-P950NW

WAREHOUSE FLOOR

Print tracking labels on the go

- Robust, lightweight label printer with Wireless connectivity
- Convenient thermal printing removes need for ink supplies
- Seamlessly connect to existing warehouse information system

Our recommendations:

Rugged Mobile Label Printer RJ-4250WB

BACK OFFICE

Print carbon copies of delivery orders

- Durable laser printer with Gigabit Ethernet and Wireless connectivity
- Carbon copy printing with optional tower tray for multiple paper types and colours
- Large output capacity for easy document sorting

Our recommendations:

Single function Mono Laser Printer HL-L6400DW; Mono Laser Multi-Function Centre MFC-L6900DW; Colour Laser Printer HL-L8360CDW, Colour Laser Multi-Function Centre MFC-L8900CDW

Add on accessories:

Document sorter MX-4000, Tower tray TT-4000

Print picking lists for outgoing orders

- Cost-efficient network printer with automatic 2-sided printing
- Handles high print demand with fast print speeds
- Increase paper capacity with lower tray expansion

Our recommendations:

Mono Laser Printers HL-L5100DN, HL-L6200DW, HL-L6400DW;

POSTAL SERVICES

BACK OFFICE

Print shipping labels for delivery

- High-performance desktop label printer with Network connectivity
- Easily integrates into existing and future warehouse workflows
- Handles high-volume printing with rear feed for external roll

Our recommendation:

4-inch Desktop Barcode Label Printer TD-4420DN

BACK OFFICE

Print slips for failed deliveries

- Cost-efficient colour MFC with Gigabit Ethernet and Wireless connectivity
- Print on different paper sizes for various needs
- Automatic 2-sided scanning and copying in a single pass

Our recommendation:

Colour Laser Multi-Function Centre MFC-L8900CDW

Optional accessories:

Tower tray TT-4000, Various lower tray options

DELIVERY

Print signed invoices on-the-go

- Compact, portable A4 printer with optional batteries for mobile operation
- Thermal printing removes need for ink supplies
- Convenient printing in delivery vehicle, with optional car mount and car adapter

Our recommendation:

A4 Mobile Thermal Printer PJ-763MFi

BACK-END

ARCHIVAL

Scan and archive purchase orders

- Powerful scanner with advanced paper handling
- Rapid scanning of 2-sided multi-page documents in a single pass
- Large capacity Auto Document Feeder delivers fast, high volume scanning

Our recommendation:

Professional Document Scanners ADS-2400N, ADS-3600W, ADS-3000N, PDS-6000, PDS-5000

HUMAN RESOURCES & FINANCE

Securely print invoices, contracts and various employee documents

- High-volume colour printing for office documents
- Secure printing of confidential employee documents with Secure Print+
- NFC card reader provides additional security

Our recommendations:

Colour Laser Multi-Function Centre MFC-L8900CDW, Colour Laser Printer HL-L8360CDW

BUILDING MANAGEMENT

In-house colour printing of A3 safety signages

- High-performance printing with automatic 2-sided, borderless printing
- Affordable cost per print
- Professional quality colour printouts

Our recommendation:

A3 Refill Ink Tank Multi-Function Centres MFC-T4500DW, MFC-J3930DW; A3 Refill Ink Tank Single Function Printer HL-T4000DW

IT DEPARTMENT

Customised solutions for your business' unique needs

- Tackle business requirements with bespoke features and custom integration with software solutions
- Fully optimised, pre-configured solutions for your logistics environments

Our recommendation:

Brother Special Solutions Customisation

Effortlessly manage your entire fleet from one location

- Organisation-level fleet management tool
- Centrally manage all Brother machines, across various locations
- Real-time email notifications for machine errors and status changes

Our recommendation:

Brother BRAdmin, Embedded Web Server EWS

Enhanced control over machine access by different users or groups

- Limit access to specific functions such as colour printing, copying, or maximum printable pages
- Enhanced print security with required NFC card access

Our recommendation:

Secure Function Lock
